

# INTERNATIONAL CONFERENCE IBSBI 2011

The Hellenic Society of Bridges Study (H.S.B.S.) and the Hellenic Society of Earthquake Engineering (H.S.E.E.) organize an International Conference held in Athens, on 13, 14 and 15 October 2011, entitled:

## “Innovations on Bridges and Soil-Bridge Interaction” IBSBI 2011

### CALL FOR ABSTRACT

The Scientific Committee invites all participants wishing to contribute to the scientific program to submit an abstract for oral or poster presentation. Abstracts must be submitted by the **extended deadline, on 20 February, 2011**. Abstracts received after this date will not be considered.

### SUBMISSION RULES

- Abstracts must be submitted using the preformatted electronic form below.
- All abstracts must be submitted in English.

#### The preformatted submission form is formatted as follows

Title	Entire title in capital letters
Presenter	Give full firstname
Authors	Give initials first, then surname without title or degrees. The presenting author's name should be included here also. Authors not listed here will be omitted from published materials.
Affiliation	Give authors' details (department, institution, city, country, e-mail address)
Abstract body	The abstract should clearly indicate the content of the paper and highlight its contribution to advance the knowledge in the respective area of research.
Abstract size	200 – 300 word abstract

### ABSTRACT SUBMISSION

You will receive a confirmation email immediately after the abstract submission, including an abstract number. When the abstract review is finished a further notification email will be sent. Please consider the key dates. If you want to submit more than one abstract with the same submitting author, send each abstract separately, using the abstract number.

Submission of abstracts [ibsbi2011@ntua.gr](mailto:ibsbi2011@ntua.gr)

If you experience any problem with the abstract submission, do not hesitate to contact us via [kmichalt@central.ntua.gr](mailto:kmichalt@central.ntua.gr)

For more details, see also the conference website: <http://ibsbi2011.ntua.gr>

### CONFERENCE TOPICS

- Aesthetics and architecture of bridges
- Bridge monitoring
- Design methods
- Fabrication and construction
- High performance materials
- Seismic behaviour
- Vehicle-bridge interaction
- Old bridges and maintenance
- Stone bridges
- Long span bridges
- Geotechnical problems
- Soil-structure interaction
- Computational techniques
- Experimental research
- Isolation and damping systems
- Aeroelasticity
- Impact and explosion problems

## KEYNOTE LECTURES

- Long span bridges
- Isolation and damping systems
- Cable-stayed bridges
- Seismic design of foundations for major bridges
- Seismic response of bridge piers with rocking foundation
- Displacement based design of bridges

## DEADLINES

Submission of abstracts	<del>30/1/2011</del> 20/2/2011
Acceptance of abstracts	<del>15/2/2011</del> 5/3/2011
Submission of papers	30/5/2011
Acceptance of papers	30/6/2011
Registration	15/7/2011

## REGISTRATION FEES

	before 15 July	after 15 July
Participants	200 €	300 €
Students	50 €	100 €

**tel:** +030 210 7724021, +30 210 7724076, +30 2610 996521
